

## OUR STANDARD FEATURES SET US APART

At Shelter Designs, we pride ourselves on building the highest quality yurts on the market today. Our standard features are included in every yurt we build, meaning you don't pay extra for the features that should come with your purchase.

While other manufacturers charge extra for many of the features listed above, we include them in our base price. This means there are no hidden costs for you.

Features	Shelter Designs	Colorado Company	Oregon Company	Washington Company
